## Learn

We are certified training partners for GRI, CDP and SASB and provide tailored ESG supply chain training for businesses and their partners. Additionally, we offer GRI short courses in human rights and the UN Sustainable Development Goals. Elevate your sustainability expertise with our comprehensive capacity-building solutions, empowering you to drive positive change and sustainable practices within your organization and across your supply chain.

## Report

Our services support the development of your inaugural sustainability report and advance existing reports. We assist in synthesizing, prioritizing and promptly responding to investor requests. We specialize in ESG reporting, GHG inventories, materiality assessments, gap assessments and ESG investor disclosure, and provide comprehensive insights to enable sustainable performance improvements.

## Improve

ISOS Group meets organizations where they are and helps them reach their sustainability goals. We increase trust and confidence in your data through third-party assurance and verification. Our services also encompass ESG and decarbonization strategy development, policy development, goals and targets setting, roadmapping, management systems, and awards and recognition submissions.
